Market Analytics

Computed technical metrics for an instrument. Only the indicators you request are computed and returned. All values are point-in-time as of the latest closed candle for the requested timeframe.

METHOD	ENDPOINT	DESCRIPTION
POST	/data/technical	Technical indicator values for an instrument
POST	/data/companyinfo	Company info metrics for an equity instrument
POST	/data/marketmovers	Top instruments ranked by open interest, volume or price movement

All enum values on this page are also listed in the Annexure.

About DhanHQ

We're trying to shape the future of trading with technology.

DhanHQ is our commitment to empowering India's trading ecosystem with advanced, low-latency infrastructure. Built on the same robust technology that powers Dhan, DhanHQ offers free trading APIs, real-time market data, and a comprehensive suite of tools tailored for traders, developers, and fintech platforms. Whether you're building custom trading systems or embedding wealth products into your product, DhanHQ provides the flexibility and speed you need. With state-of-the-art infrastructure and a developer-friendly approach, we're enabling a new era of trading innovation in India.
